Why Sponsor TAMUHack? Texas A&M's largest student run hackathon

Texas hackathons are in short supply, and Texas A&M is joining an elite few schools that are starting to host these extremely sought after events. Sponsoring TAMUHack gives you incomparable access to some of the state's top tech talent, as well as brand exposure, API demos, and tech talks.

Get the most out of your generous sponsorship by:

1. **Bringing company engineers as mentors.** Interact with the students by helping them work with your company API's as well as by building your brand and talking with them about your company.
2. **Send Company swag.** Build your brand by sending t-shirts, water bottles, pens, Frisbees, stickers etc. The hackers love these and it gives them another reason to approach you and learn about your company.
3. **If you had something in mind that's not on this list, tell us.** We want the companies to get what they want out of the hackathon, as well as the students. If you would like to do something that you don't see listed in our tier rewards. Let us know!

Startup	Standard	Tech	Accelerated
